H. E. Mr. Ahad Mohammadi,

President of Iran-China Friendship Association

Dear Mr. Ahad Mohammadi,

Your letter dated November 28 has been duly received. I would like to once again extend my appreciation and gratitude to your excellency for your effort in promoting the people-to-people friendship between China and Iran.

We are shocked by the death of the Iranian scientist Dr. Mohsen Fakhrizadeh, and would like to extend condolences and sympathies to his families. We solemnly condemn this violent crime and look forward to the thorough investigation of the incident.

China and Iran are the staunch defenders of world peace. The Chinese People's Association for Friendship with Foreign Countries stands ready to work with your esteemed association to implement the achievements of the 11th annual conference of friendship associations between China and Iran, jointly promote friendly and mutual beneficial cooperation in various fields, and make new contributions to safeguarding world peace and enhancing people's well-being.

Best regards,

Amb. Lin Songtian

President of the CPAFFC
